Shuriken

Shuriken (手裏剣) literally means sword hidden in user's hand. It's a concealed weapon generally used for throwing, and sometimes stabbing or slashing.

The art of wielding the shuriken is known as Shuriken Jutsu and is taught around Japan as a part of martial arts.

The Kenichi Shuriken are handmade from scratch, one by one in Miki City Japan. Each shuriken comes packed carefully in a traditional paulownia box stamped with the Komatsu family seal.

The Kenichi Shuriken is made as a high grade collectors item for real ninja fans.

Our shurikens are made in high carbon steel(SK-5) usually used in high grade cutlery products.

※ Please refrain from throwing these items.

Kunai

The Kunai (苦無) which was originally a tool was soon developed into a weapon. Nowadays the Kunai is widely known from movies and anime, used by ninjas as a throwing knife to pin their pray down. While a rather basic tool, in the right hands it can be used as a multi functional weapon.

The Kenichi Kunai, “The ninja paper knife” is made to look close to the real thing while still leaving some utility. So weather you would like to use it as an accessory for cosplay, or keep it as an original paper knife, either is possible.

Our Kunai are made in high carbon steel (SK-5) usually used in high grade cutlery products.

Straps

A miniature shuriken strap for your phone, keychain or bag. Comes in a variety of strap colors. Choose the one you identify yourself with and stand out from your friends.

Tie Clip Set

Bring a piece of Japan with you on formal occations, or give it to your ninja loving friend.

Made in brass, nickelplated with an oxide finish.

Miki-city x Kenichi

Miki City is a small town in Japan, roughly an hour car ride from the metropolitan area Osaka. Miki City is widely known for steel, famous for their hardware, saw blades and wood-carving tools sold all over the world. Miki-city's carpenters and blacksmiths have a long history of great reputation, with their skill valued even in the metropolitans.

The Komatsu-family, the creator of the Kenichi brand, has over 300 years of history Japan. The family crest has been passed down for generations before being put to use in the Kenichi brand as a symbol, and also pressed directly to the shurikens.

Kenichi's throwing stars, and other merchandise are embedded with Miki city's history, and valued craftsmanship. As a throwing star, they both look the part and feel it, making them the only one of its kind.
